

Student Testimonial Form

Award Name: **Saskatchewan Knights of Columbus Charitable Foundation Award**

Student Name: Tyler Heffernan
Campus: Prince Albert
Program: Business

Please share with us your thoughts on what winning this award means to you and what you would like the donor to know about yourself.

I would first like to start with a sincere thank you for selecting me to receive this generous investment in my future. This award means so much to me because growing up and going to church, I'd always see a wall covered with photos of the Knights Of Columbus who volunteered their time there. Being recognized by that same organization and receiving an investment in my future is truly an honour. I very deeply appreciate the belief that they have put in me and towards my career path. Faith is such a powerful thing whether its faith in yourself, another person, or faith in God and I am so grateful to Knights of Columbus for having faith in me.

This fall I will be going into the School of Business at Saskatchewan Polytech and will be beginning my journey into the world of business and more specifically, accounting. My entire life I have excelled at using math and numbers so this just seemed like a natural fit for me and I'm hopeful and determined to work hard so that i will succeed in every aspect of my future. I have worked hard every school year to excel, and although this year will likely be tougher than any other year, I'm determined to make it my most successful year yet. Now with the assistance of the Knights of Columbus, my future and my dream is one giant step closer.
